

# OFFSHORE ACCOUNTING SERVICES

## END TO END

**Advanced Corporate Solutions** is an offshore accounting services specialist. Why put up with an expensive and in-efficient in-house accounting function when you can outsource to a more efficient and more cost effective solution.

Accounting services and processes were among the earliest business functions to be outsourced. In an ever challenging global competitive landscape, smart business owners and finance executives continue to seek to streamline their processes and cut costs in order to achieve high performance business results.

ACS provides a full suite of offshore accounting solutions to businesses of all size across a wide range of industries. Our finance specialists and accountants possess international qualifications and have extensive industry experience.

We improve your processes and implement innovative costs saving measures that allow you to act strategically and support the growth of your company.

# HOW IT WORKS

## Meet Your Online Accountant

It is **SIMPLE**, it is **EASY** and it is **FAST**. We do a free assessment of your accounting, bookkeeping and reporting needs and recommend an optimum online solution.

Depending upon your business needs the recommended solution could consist of the following components:

- ◆ Online **Accounting Software**.
- ◆ Online or offline access to your **Existing Accounting System**.
- ◆ Dedicated accountant(s) available **Full-time** or **Part-time**.
- ◆ Online **Document Sharing Tools**.
- ◆ Voice & video **Communication**.
- ◆ Access to the **Source Documents**.

Since there is no 'One Size Fits All' solution for unique business circumstances, each individual environment is served by a custom developed service chain consisting of different combinations and linkages of the components mentioned above.

You get a fully functional and highly efficient accounting, bookkeeping and reporting function which does not occupy any floor space of your valuable business premises.

# HOW MUCH IT COSTS

As a thumb rule, outsourced or remote accounting services are always more cost effective compared to in-house functions. Whatever you spend today, you can look forward to reduce it to 30% or less.
