HOW IT WORKS

It is **SIMPLE**, it is **EASY** and it is **FAST**. We do a free assessment of your accounting, bookkeeping and reporting needs and recommend an optimum solution.

Depending upon your business needs the recommended solution could consist of the following components:

- ◆ Cloud/Desktop **Accounting Software**.
- ◆ Online or offline access to your **Existing Accounting System**.
- ◆ Dedicated accountant(s) **Fulltime** Placement, **Part-time** Visiting or Remote/**Online**
- ◆ Online **Document Sharing Tools**.
- ◆ Voice & video **Communication**.
- ◆ Access to the **Source Documents**.
- ◆ **Monitoring** mechanism.

Since there is no 'One Size Fits All' solution for unique business circumstances, each individual environment is served by a custom developed service chain consisting of different combinations and linkages of the components mentioned above.

You get a fully functional and highly efficient accounting, bookkeeping and reporting function which does not necessarily occupy any floor space of your valuable business premises.

HOW MUCH IT COSTS

As a thumb rule, outsourced or remote accounting services are always more cost effective compared to in-house functions. Whatever you spend today, you can look forward to reduce it to 50% or less.
