

OFFSHORE FINANCE TEAMS

Build Your Own Dedicated Offshore
Finance Team

STRUCTURED. GOVERNED.
FULLY INTEGRATED.

ACS SYNERGY enables you to
establish a high-performing
offshore finance team
dedicated exclusively to your
organization

www.acssynergy.com

Your Team. Your Control. Our Platform.

ACS SYNERGY designs, recruits, and manages qualified offshore finance professionals who operate within your systems, reporting structure, and governance framework.

You define
the roles.

You direct
the work.

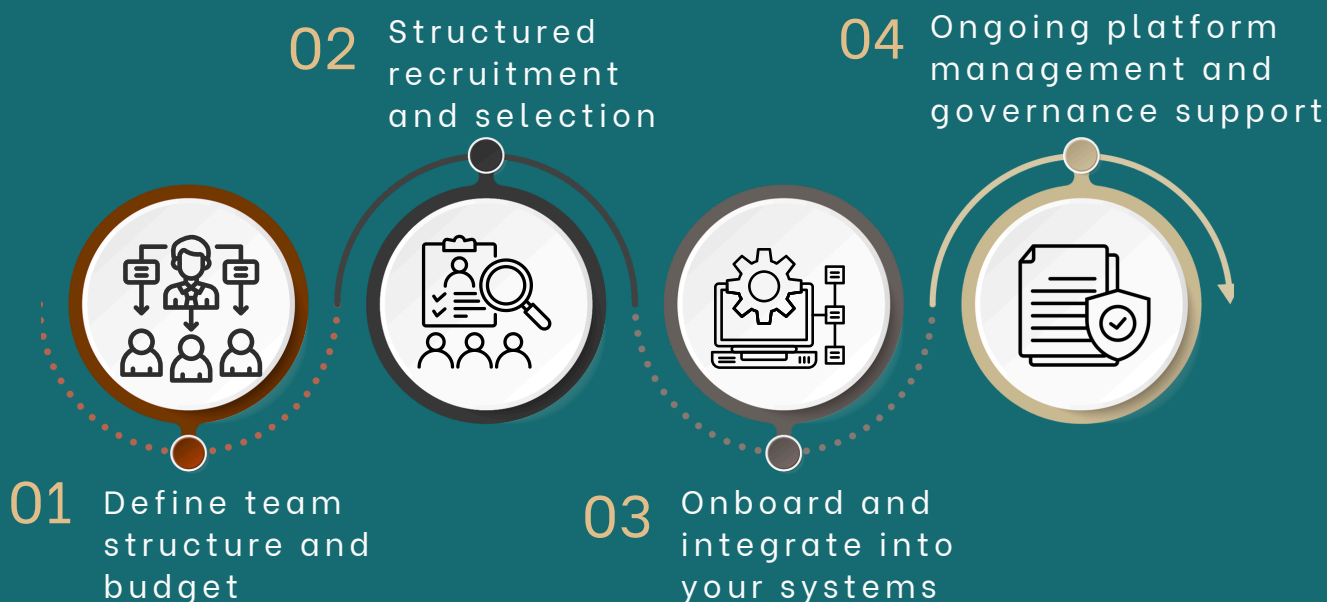

You retain full
operational
control.

We provide the recruitment, infrastructure, HR management, facilities, IT support, and operational framework required to make the model work seamlessly.

The result is your in-house finance department operating offshore, supported by disciplined infrastructure.

How the Model Works

Transparent structure. . No hidden layers.

Cost Efficiency

Scalable Capacity

Administrative Relief

Governance Discipline

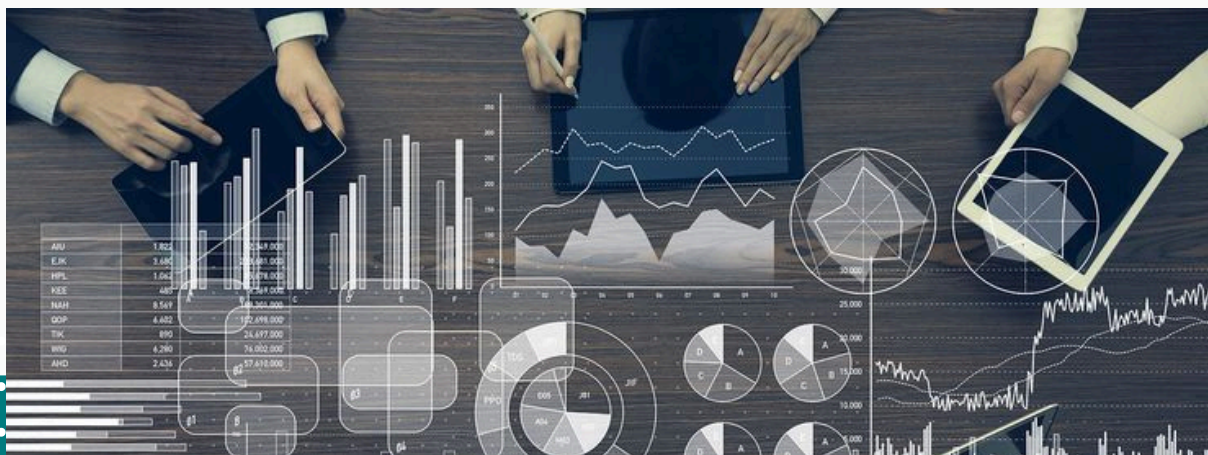

Defined reporting alignment, data access protocols, and performance monitoring.

Pakistan has developed into a significant global talent hub for finance and accounting.

Mature
professional
services
ecosystem

Lahore serves as a major professional services center with strong infrastructure and connectivity.

Who This Is For

Accounting & advisory firms
scaling delivery capacity

Mid-sized and large enterprises
building structured finance
capability

Private equity-backed
organizations requiring
disciplined reporting

Family groups centralizing
multi-entity operations

CFO-led transformation
initiatives integrating offshore
into operating models

Commercial Structure

Employment costs are transparently passed through.

Monthly billing is structured and itemized.

ACS charges a clearly defined management and infrastructure fee.

Designed for clarity, auditability, and long-term scalability.
